

How Do I Get Involved?

The primary responsibility of the Involvement Ministry is to help those members who want to be involved find a place of meaningful service at the Germantown Church of Christ.

- Each new member receives a new member's packet. This packet contains information about most of the activities of the Germantown Church of Christ. Also included in the packet is a Talent Information Profile that allows the new member to indicate to us where he or she would like to serve. This information is supplied to the deacons who are encouraged to use these new members in their ministries.
- Each new member is also given the opportunity to attend a "Welcome To The Family Class."
- Each new member is encouraged to attend a Bible class.
- Each new member is encouraged to participate in the Heart Group program.

Those members who have been at Germantown for some time are also encouraged to actively participate in Bible classes, Heart Groups, and at least one ministry. They are actively recruited for specific job opportunities. They may update their Talent Information Profiles at any time but are encouraged to do so when we update our pictorial directory.

The Involvement Ministry is also a resource for our deacons to help make their ministries as effective as possible.

- We provide information about possible workers.
- We provide information regarding available materials, equipment, etc.
- We promote ministry activities through the bulletins, flyers, e-mails, and the phone tree.

The Involvement Ministry also helps locate and contact potential members from the local community.

- We promote the Lord's church in this community through advertising and public relations activities.
- We provide information to our members about opportunities for service to our community.
- We provide information to our members about those people who have just moved into our area.

For additional information please contact [Ron Roberson](#).
